SUMMARY

Power BI and SQL enthusiast with experience in data modeling, dashboard development, and BI admin tasks. Skilled in transforming data into insights and optimizing reporting workflows. Eager to contribute to impactful, scalable BI solutions.

WORK EXPERIENCE

RealPage India Private Limited — Process Associate

Nov 2025 — Present

- Collect, verify, and update property lien clearance data while ensuring accuracy and compliance with process standards.
- Maintain organized data records and collaborate with cross-functional teams to resolve discrepancies.
- Developed strong attention to detail, documentation quality, and process-driven workflow skills.

SSPFC (S.S. Patel Fruit Company) — Data Analyst Intern

Aug 2025 — Sep 2025

- Performed ETL operations to clean, transform, and prepare datasets, and built interactive Power BI dashboards to support data-driven decision-making.
- Analyzed sales and supply chain data to identify trends, optimize procurement, and improve distribution efficiency.

PROJECTS

CONSUMER GOODS AD-HOC INSIGHTS — MySQL, SQL Joins, CTEs, Window Functions [Link ↗](#)

Jun 2025

- Crafted complex ad-hoc reports integrating 2M+ rows of sales data using MySQL, SQL Joins, CTEs, Subqueries, and Window Functions, optimising query performance by 20% and driving a 15% increase in marketing efficiency and a 10% revenue growth across key markets.

BUSINESS INSIGHTS 360 — Brick & Mortar Business (SQL and Power BI) [Dashboard ↗](#) | [Link ↗](#)

May 2025

- Modernised Atliq's reporting by building and deploying a centralized Power BI solution integrated with SQL and Excel sources, creating optimised data models and secure department-wise workspaces, and enhancing performance using DAX Studio, resulting in faster insights and improved decision-making across key business functions.

SALES AND FINANCE REPORT — Excel, Pivot Tables, VLOOKUP, XLOOKUP [Link ↗](#)

Apr 2025

- Developed a 3-year P&L reporting system using Excel and Power Query by automating data cleaning, building efficient Pivot-based models, and optimizing calculations, reducing processing time by 50% and enabling faster, more accurate financial insights for data-driven decision-making.

KEY SKILLS

- **Power BI Administration:** Workspaces & access management, dataflows, scheduled refresh, RLS, performance optimization
- **Data Modeling & Analysis:** Power BI (DAX, data modeling), Excel (Pivot Tables, Power Query)
- **Databases & ETL:** SQL (MySQL, PostgreSQL), Data Cleaning, Transformation, ETL
- **Tools & Platforms:** Power BI Service, DAX Studio, VS Code, Canva, GitHub, Notion, Slack, MS Teams
- **Soft Skills:** Analytical Thinking, Problem-Solving, Communication, Time Management

EDUCATION

Master of Computer Applications

Percentage: 73.72%

Central University of Karnataka

Aug 2024

B.Sc. in Computer Science

Percentage: 80.18%

Gulbarga University, Kalaburagi

Nov 2022

CERTIFICATIONS

- Power BI: Beginner to Advanced for Data Analytics - CodeBasics [Link ↗](#)
- Advanced Excel for Data Analytics - CodeBasics [Link ↗](#)
- SQL (Intermediate) - HackerRank [Link ↗](#)
- Python (Basic) - HackerRank [Link ↗](#)

ROLES AND RESPONSIBILITIES

- Event & Operations Lead | Indian Data Club [Link ↗](#)

Jul 2025 - Present

Led the 21-Day SQL Challenge by creating structured Notion content, coordinating cross-functional teams, and driving over 3,000 registrations to successfully deliver the program with mini projects and a capstone.
